PROFESSIONAL STORE FIXTURE INSTALLATION

TURNKEY PROJECT SYSTEM

National Installers, Inc. provides a turnkey solution in which the company provides all labor and materials for the installation of new fixtures, used fixtures, or a combination of both. To ensure each project is done efficiently, correctly, and on time, every aspect of the job is carefully planned, inspected, and controlled from conception through completion.

*** National Installers can remodel while your business remains open, so retailers do not lose sales during the installation process.**

INSTALLATION SUPERVISOR

Want to do it yourself? Installation supervisors are available to assist and instruct your employees on installing and reconfiguring new and existing fixtures. National Installers ensures that all installation supervisors have served in the industry for many years and are highly trained and knowledgeable of installing all types of retail fixtures.

*** National Installers will dismantle, pack, load, ship, palletize, and install used fixtures in a new location or as part of relocation.**

PRICING

There are several ways to price an installation project. National Installers desires to price jobs based on customers' needs and requirements. If specific plans are available, National Installers can give a fixed quote for the entire job. If the plans are subject to change, an estimate is given and adjustments are made on a time and material basis.

CONSULTATION

Representatives are available for consultation on each installation or remodeling project. Fixed quotes can be given for jobs with specific plans. Close estimates are recommended for plans that are made on a time and material basis upon completion of the project.
