Sales Floor Solutions

Making the most of the sales floor is one of the most difficult challenges met by convenience store retailers today. At Madix, we offer products that help you utilize every centimeter of your sales floor. Our Maxi Line system gives customers more than 48" (1219 mm) of extra facing space by adding 1 3/8" (35 mm) to each section. This means more products on display, and more selling opportunities per square foot.

Organization through accessories makes shoppers stop and buy

Draw Attention to Profitable Merchandise

Drawing attention to merchandising categories can be challenging when you have little space on the sales floor. Madix offers a variety of signage and illuminated displays that draw attention to merchandise, using existing space.
