# CERTIFIED QUALITY A GUARANTEE YOU CAN TRUST

## The Industry's Finest Store Fixtures Since 1956

For over sixty years, Madix has collaborated with retailers and brands to develop state-of-the-art solutions to their various merchandising challenges. Each of our products is designed to enhance the store environment for better performance, higher shopper-satisfaction rates, and more sales. Let us help you create the optimum layout for your stores' specific needs; with over thousands of standard, cataloged options available, the possibilities are virtually endless. We'll work with you one-on-one to devise creative, viable methods to make your sales floor and/or storage areas more productive.

## Metal Platform with Bumper

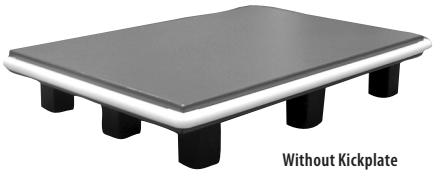

- Display bulk merchandise efficiently
- Pallet-jack accessible platform
- May be ordered with removable kickplates for more finished appearance
- Use as end cap base by setting at end of gondola or warehouse-type racking
- Can be placed side-by-side to form larger platform
- Platform height off the floor is 6" (152 mm)
- Load capacity:
  - 48"x 48" (1219mm x 1219 mm) = 2500 lbs
  - 48"x 24" (1219 mm x 610 mm) = 1250 lbs

## Promotional Display Flat Kit

- Pallet jack access allows for easy relocation
- Overall height of display is 59" (1499 mm)
- 36" (914 mm) wide unit accepts 36" (914 mm) wide Maxi Line accessories
- 48" (1219 mm) wide unit accepts 48" 1219 mm) wide accessories
- Kit includes:
  - 1 – Promotional Display Flat
  - 2 – Basic Uprights with Upright Caps
  - 2 – Painted Pegboard Backs
  - 2 – Upright End Covers
  - 1 – Top Cap
  - 1 – Center Spanner
  - 1 – Lower Spanner
  - 1 – Hardware Pack
- Uprights on the Promotional Display Flat Kit are rated at 1600 inch-lbs off-set load
- Shelf and accessory depth may not exceed 20" (508 mm)

### OPFSK-(NW)(ND)

## Feature Aisle Display

- Efficiently display merchandise in main aisles or high traffic areas of stores
- Perfect for both small and large sales floors
- Lifts sales by displaying merchandise on all four sides
- Colorful and completely customizable; utilize the shelves alone, or combine with pegboard for displaying pegged merchandise
- When ordering optional Pallet Jack Base, do not order Base Shoes, Kickplates and Metal End Flats
- Load capacity 800 lbs in all sizes, based on evenly distributed static loading

## A Back Panel

- Choose either Pegboard or Hardboard
- For 2' x 3': NW 18", NH 60" (NW 457 mm, NH 1524 mm)
- For 3' x 4': NW 24", NH 36" (NW 610 mm, NH 914 mm)
- Nominal Height minimum of 60" to 72" in 6" increments (1524 mm to 1829 mm in 152 mm increments)

**B(TYPE)-(NW)(NH)**

B .... Back
TYPE .... P=Pegboard
H=Hardboard
NW .... Nominal Width 2' (610 mm)
NH .... Nominal Height
60" to 72" in 6" increments
(1524 mm to 1829 mm
in 152 mm increments)

## B Basic Upright

- Slotted 1" (25 mm) on centers for flexibility plus maximum space
- Compromised of heavy gauge, high tensile steel components welded into a single unit with a 15,000 inch-pound rating
- All Basic Uprights have integral leveler

**BU-(NH)**

BU .... Basic Upright
AH .... Nominal Height 36" to 144" in 6" increments
(914 mm to 3658 mm in 152 mm increments)

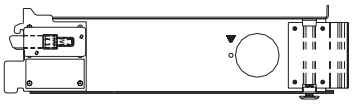

## C Base Shoe, Straight In Locking

- Projection welded high tensile steel gives maximum load capacity
- Exclusive "I" beam design is 5" (127 mm) low
- Screwdriver leveling and electrical access
- Straight in insertion does not require tipping of the Basic Upright for installation
- Finishes are random unless Chocolate specified
- For 2' x 3': NW 12" (NW 305 mm)
- For 3' x 4': NW 18" or 24" (NW 457 mm or 610 mm)

**BSSIL-(ND)**

BSSIL .... Straight In Locking Base Shoe
ND .... Nominal Depth 12" to 30" in 2" increments
(304 mm to 762 mm in 50 mm increments)

## D Basic Upright Brace

- For 2' x 3': NW 18", NH 36" (NW 457 mm, NH 914 mm)
- For 3' x 4': NW 24", NH 36" (NW 610 mm, NH 914 mm)

**BUB-(NW)(NH)**

BUB .... Basic Upright Brace
NW .... Nominal Width 18" or 24" (457 mm or 610 mm)
NH .... Nominal Height 36" (914 mm)

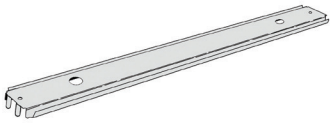

## E Lower Spanner

- Snap-in spanner secures uprights at equal spacing and supports back panels
- Electrical knockouts
- For 2' x 3': NW 18" (NW 457 mm)
- For 3' x 4': NW 24" (NW 610 mm)

**SL-(NW)**

SL .... Lower Spanner
NW .... Nominal Width 2' (610 mm )

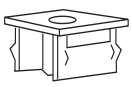

## F Upright Clear Cap

- High impact molded plastic cap finishes open top end of Upright
- Provision for tapered or threaded stem sign holders
- Fits Telescoping Upright knockout in Top/Lower Spanner

**UCC**

UCC .... Upright Cap, Clear

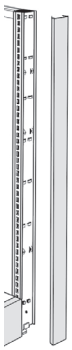

Not responsible for errors or omissions in printing. © 2024 Madix, Inc. All Rights Reserved.

## G Metal Upright End Cover

- Metal cover trims off end Upright of all runs
- Easy snap-on positive locking
- Standard colors: Sahara, Chocolate, Snow White
- Optional colors available
- Nominal Height minimum of 60" to 72" in 6" increments (1524 mm to 1829 mm in 152 mm increments)

**VC-(NH)**

VC .... Metal Upright End Cover
NH .... Nominal Height 60" to 96" in 6" increments (914 mm to 2438 mm in 152 mm increments)

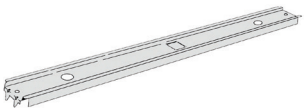

## H Top Spanner

- Snap-in spanner secures uprights at equalspacing, traps back panels and trims top of section
- Electrical and telescoping Upright knockouts
- For 2' x 3': NW 18" (457 mm)
- For 3' x 4': NW 24" (610 mm)

**STL-(NW)**

STL .... Top Spanner
NW .... Nominal Width 18" or 2' (457 mm or 610 mm)

## I Standard Base Shelf

- Formed price tag molding matches molding on upper shelves (see SUS)
- Heavy-gauge shelf bracket features lock tab to ensure quick installation and precision alignment
- Load capacity 600 lbs in all sizes, based on evenly distributed static loading
- Flush Front option available
- For 2' x 3': NW 18", ND 12" (NW 457 mm, ND 305 mm)
- For 3' x 4': NW 24", ND 18" or 24" (NW 610 mm, ND 457 mm or 610 mm)

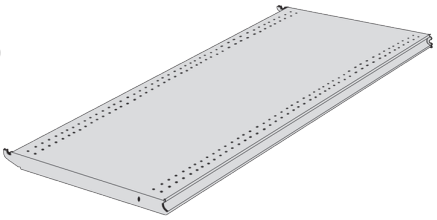

**SBS-(NW)(ND)**

SBS .... Standard Base Shelf
NW .... Nominal Width 18" or 2' (457 mm or 610 mm)
ND .... Nominal Depth 12", 18" or 24" (305 mm, 457 mm or 610 mm)

**Configurable Options**

**TYPE-OPT**

TYPE .... Blank=Perforated
NP=Non-Perforated
OPT .... Optional Covering:
L=Laminate, C=Carpet, F=Fabric

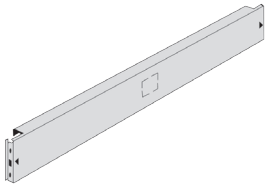

## J Kickplate

- For 2' x 3': NW 18" (457 mm)
- For 3' x 4': NW 24" (610 mm)

**KP-(NL)-5**

KP .... Kickplate
NW .... Nominal Length 18" or 2' (457 mm or 610 mm)
5 .... Nominal Height 5" (127 mm)

## K Metal End Flat, 2' x 3'

- For a completely finished wraparound end look with widths to match all Gondola Bases
- Partially assembled to expidite installation
- Kickplate assembly slips into Gondola Base Shoes, replacing Base End Covers, prior to installing End Frame
- Continuous tag molding matches all Standard Upper Shelves and has 2" (51 mm) radius safety corners
- End Flat accommodates 1¼" (32 mm) tags and has four-point top leveling of shelf assembly

**PAPMEF101212-S5**

PAP .... Partially Assembled, Perforated
MEF .... Metal End Flat
10 .... Nominal Depth 10" (254 mm)
12 .... Nominal Width Left-Hand 12" (305 mm)
12 .... Nominal Width Right-Hand 12" (305 mm)
S .... Standard Shelf
5 .... Nominal Base Height 5" (127 mm)

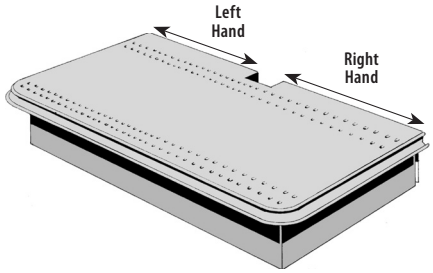

## K Heavy-Duty Metal End Flat, 3' x 4'

- For a completely finished wraparound end look with widths to match all Gondola Bases
- Partially assembled to expidite installation
- Kickplate assembly slips into Gondola Base Shoes, replacing Base End Covers, prior to installing End Frame
- Continuous tag molding matches all Standard Upper Shelves and has 2" (51 mm) radius safety corners
- End Flat accommodates 1¼" (32 mm) tags and has four-point top leveling of shelf assembly

**HDPAPMEF12-1818-S5**

HD .... Heavy-Duty
PAPMEF .... Partially Assembled Perfed Metal End Flat
12 .... Nominal Depth 12" (305 mm)
18 .... Nominal Left-Hand Base 18" (457 mm)
18 .... Nominal Right-Hand Base 18" (457 mm)
S .... Standard Shelf
5 .... Base Height 5" (127 mm)

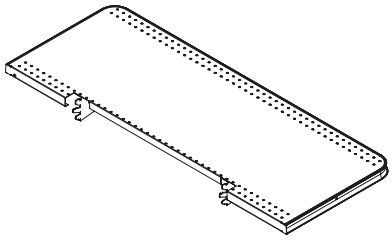

## L Wrap Around Notched Upper Shelf

- Specially designed for a completely finished end look
- Continuous tag molding matches all Standard Upper Shelves and has 2"
- (51 mm) radius safety corners
- Accommodates 1¼" (32 mm) tags
- Tag molding matches all Standard Shelves and End Flats
- For 2' x 3': NW 36", ND 12", 18" or 24" (NW 914 mm, ND 305 mm, 457 mm or 610 mm)
- For 3' x 4': NW 48", ND 12", 18" or 24" (NW 914 mm, ND 305 mm, 457 mm or 610 mm)

**WAUSN(NW)(ND)**

WAUSN .... Wraparound Notched Upper Shelf
NW .... Nominal Width 36" or 48" (914 mm or 1219 mm)
ND .... Nominal Depth 12", 18" or 24" (305 mm, 457 mm, or 610 mm)

## Casters for Feature Aisle Display

### M Mobile Gondola End Deck

- To attach end deck to Mobile Gondola, order a Mobile Gondola End Deck to permit mobility inentire fixture run
- Contains two caster runners and front and side kickplates
- Caster runners connect to Madix Base Shoes, allowing for a completely mobile Gondola
- Includes Wraparound Base Shelf
- Load capacity is 400 lbs
- For 2' x 3': ND 12", LSD 12", RSD 12" (ND 305 mm, LSD 305 mm, RSD 305 mm)
- For 3' x 4': ND 12", LSD 18", RSD 18" (ND 305 mm, LSD 457 mm, RSD 457 mm)

**MGED(ND)(LSD)(RSD)(NP)**

MGED .... Mobile Gondola End Deck
ND .... Nominal Depth 12" (305 mm)
LSD .... Left Side Depth 12" or 18" (305 mm or 457 mm)
RSD .... Right Side Depth 12" or 18" (305 mm or 457 mm)
NP .... Blank=Perforated NP=Non Perforated

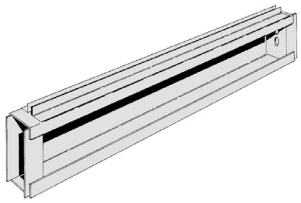

### N Open Back Stiffener

- For 2' x 3': NW 18" (457 mm)
- For 3' x 4': NW 24" (610 mm)

**OBS-(NL)**

OBS .... Open Back Stiffener
NL .... Nominal Length 18" or 2' (457 mm or 610 mm)

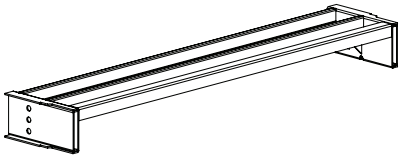

### O Mobile Gondola Plate Caster Runner

- For 2' x 3': NW 18" (457 mm)
- For 3' x 4': NW 24" (610 mm)

**MGPCCR-(NW)**

MGP .... Mobile Gondola Plate
CCR .... Caster Runner
NW .... Nominal Width 18" or 2' (457 mm or 610 mm)

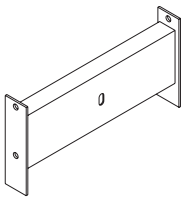

### P Seismic Tie Bar

- Stabilizes Maxi Line Basic Uprights when required by local or state building codes
- Bar may also be used if additional support is necessary for larger loads
- Hardware pack included
- For 2' x 3': NW 18" (457 mm)
- For 3' x 4': NW 24" (610 mm)

**SCS-(NW)**

SCS .... Seismic Tie Bar
NW .... Nominal Width 18" or 2' (457 mm or 610 mm)

Texas: 214-515-5400 Alabama: 256-839-6354

## Round Feature Aisle Display

- Efficiently display merchandise in main aisles or high-traffic areas of stores
- Perfect for both small and large sales floors
- Boosts sales by displaying merchandise completely around the fixture
- Utilize the shelves alone, or combine with pegboard for displaying pegged merchandise
- Load capacity 800 lbs in all sizes, based on evenly distributed static loading (DO NOT move fully loaded)

**Round Unit Parts List**

| | Part Number | Part Number | Quantity | Notes |
|---|---|---|---|---|
| A | B(TYPE)-(NW)(NH) | Back Panel | 2 | 12" x 54" |
| B | BU-(NH) | Basic Upright | 2 | 54" (36" to 96" in 6" increments) |
| C | BSSIL-(ND) | Base Shoe, Straight-In Locking | 4 | 16" |
| D | SBS-(NW)(ND) | Standard Base Shelf | 2 | 12" x 16" |
| E | KP-(NL) | Kickplate | 2 | 12" |

## F Standard Upper Shelf

- 1¼" (32 mm) tag molding integrally formed into front edge of shelf surface
- Load capacity, flat position:
  - 6" (152 mm) to 8"(203 mm) depths=300 lbs
  - 10" (254 mm) to 24" (610 mm) depths=500 lbs
  - 26" (660 mm) to 30" (762 mm) depths=400 lbs
- Load capacities based on evenly distributed static loading

**SUS-(NW)(ND)**

SUS .... Standard Upper Shelf
NW .... Nominal Width 2' to 4' in 6" increments (610 mm to 1219 mm in 152 mm increments)
ND .... Nominal Depth 8" to 30" in 2" increments (203 mm to 762 mm in 51 mm increments)

**Configurable Options**

**TYPE-OPT**

TYPE .... Blank=Perforated, NP=Non-Perforated
OPT .... Optional Covering L=Laminate, C=Carpet, F=Fabric

## G Basic Upright End Shelf Insert Only

- For use with Round Metal Upper Shelf
- Field assembles to Basic Upright

**BUESI(NH)**

BUESI .... Basic Upright End Shelf Insert Only
NH .... Nominal Height 48" to 78" in 6" increments (1219 mm to 1981 mm in 152 mm increments)

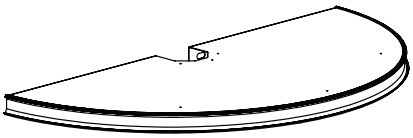

## H Round Metal Upper Shelf Modified

- Allows continuous display of product at the end of a gondola run
- Does not block view of merchandise
- Load capacity for upper shelf is 200 lbs

**RMUSM(NR)**

RMUSM .... Round Metal Upper Shelf Modified
NR .... Nominal Radius 12" to 24" in 2" increments (305 mm to 610 mm in 51 mm increments)

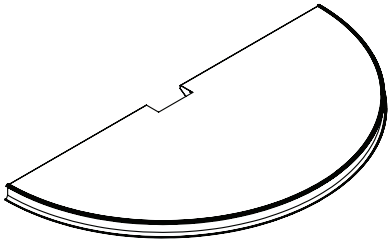

## I Round Metal Base Shelf

- Allows continuous display of product at the end of a gondola run
- Does not block view of merchandise
- Load capacity for base shelf is 300 lbs

**RMBS(NW)(ND)**

RMBS .... Round Metal Base Shelf
NW .... Nominal Width 24" to 48" in 4" increments (610 mm to 1219 mm in 102 mm increments)
ND .... Nominal Depth 12" to 24" in 2" increments (305 mm to 610 mm in 51 mm increments)

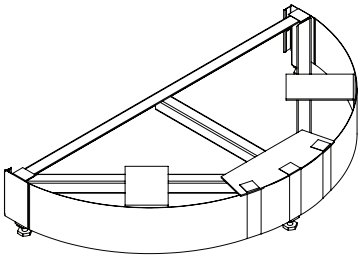

## J Round Metal Base Kickplate

- Mounts into gondola Base Shoes
- Required when Base Shelf is ordered
- Standard finishes: Chocolate or Black

**RMBKP(NW)(ND)**

RMB .... Round Metal Base
KP .... Kickplate
NW .... Nominal Width 24" to 48" in 4" increments (610 mm to 1219 mm in 102 mm increments)
ND .... Nominal Depth 12" to 24" 2" increments (305 mm to 610 mm in 51 mm increments)

## K Top Spanner

- Snap-in spanner secures uprights at equal spacing, traps back panels and trims top of section
- Electrical and telescoping upright knockouts

**STL-(NW)**

STL .... Top Spanner
NW .... Nominal Width 3' or 4'
(914 mm or 1219 mm)

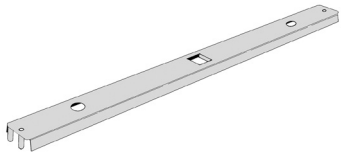

## L Center Spanner

- Galvanized snap-in spanner ensures back panel rigidity
- Electrical and telescoping upright knockouts
- Galvanized only

**SC-(NW)**

SC .... Center Spanner
NW .... Nominal Width 3' or 4'
(914 mm or 1219 mm)

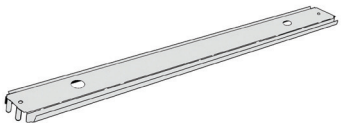

## M Lower Spanner

- Snap-in spanner secures uprights at equal spacing and supports back panels
- Electrical knockouts

**SL-(NW)**

SL .... Lower Spanner
NW .... Nominal Width 3' or 4'
(914 mm or 1219 mm)

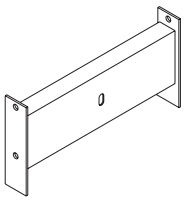

## N Seismic Tie Bar

- Stabilizes Maxi Line Basic Uprights when required by local or state building codes
- Bar may also be used if additional support is necessary for larger loads
- Hardware pack included

**SCS-(NW)**

SCS .... Seismic Tie Bar
NW .... Nominal Width 18" or 2'
(457 mm or 610 mm)

## Utility Bins

Durable and economical, Utility Bins are available in several styles to satisfy almost any requirement. They provide an efficient solution to seasonal and spot-promotional displays. Bins fold flat for easy shipping and storage, white built-in sign holders and legs keep the unit off the floor to aid in cleaning. Adjustable shelves allow displays to always look full.

## Dump Bin

- Display large quantities of excess bulk items
- Center wire shelf designed for easy adjustment
- Breaks down easily, can be stored flat
- 7" x 11" sign holder (178 mm x 279 mm)
- Included as standard is ⅜"-24 thread 5½" sign holder stem that can fit other brands of signs that accommodate stem
- Load capacity is 200 lb

**DBS-(NW)(ND)-(OPT)**

DBS .... Dump Bin
NW .... Nominal Width 18" to 24" in 2" increments (457 mm to 610 mm in 51 mm increments)
ND .... Nominal Depth 18" to 24" in 2" increments (457 mm to 610 mm in 51 mm increments)
OPT .... SH=With Sign Holder
Blank=Without Sign Holder

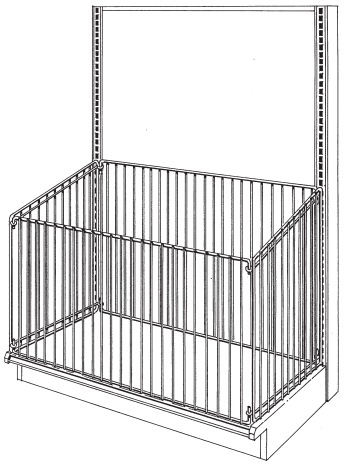

## Bulk Basket

- Easy assembly with loop and pin connectors
- Four flat panels for minimum storage space
- .375 frame wire and .250 vertical wires on 1¾" (44 mm) centers rest on Maxi Line Base Shelf or floor

**BBSKT(NW)(ND)-2430**

BBSKT .... Bulk Basket
NW .... Nominal Section Width 36" or 48" (914 mm or 1219 mm)
ND .... Nominal Base Shelf Depth 18" to 30" in 2" increments (457 mm to 762 mm in 510 mm increments)
24 .... Front Height 24" (610 mm) only
30 .... Rear Height 30" (762 mm) only

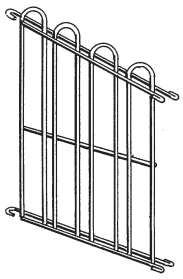

## Bulk Basket Divider

- Divider for Bulk Basket [BBSKT(NW)(ND)-(FH)(RH)]

**BBSKTD(ND)-(FH)(RH)**

BBSKTD .... Bulk Basket Divider
ND .... Nominal Depth 18" to 30" in 2" increments (457 mm to 762 mm in 510 mm increments)
24 .... Front Height 24" (610 mm) only
30 .... Rear Height 30" (762 mm) only

## Grid Dump Table

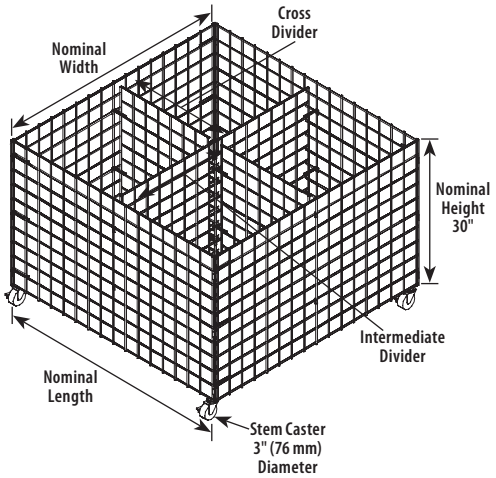

- Grid shelf adjusts from floor to top of unit in 3" (76 mm) increments
- Locking casters facilitate relocation and cleaning
- Unit ships unassembled
- Standard finishes: Cream, White, Black, Dove Gray and Chrome
- Load capacity is 600 lbs

**NOTE!**
**Merchandise not to extend above sides of Dump Table.**

### DT(NW)(NL)30U

DT .... Grid Dump Table
NW .... Nominal Width
24" to 48" in 12" increments
(610 mm to 1219 mm
in 305 mm increments)
NL .... Nominal Length
24" to 48" in 12" increments
(610 mm to 1219 mm
in 305 mm increments)
30 .... Nominal Height 30" (762 mm)
U .... U=Dump Table

## Grid Dump Divider

- 3" x 3" (76 mm x 76 mm) wire pattern
- Hook and slot design permits flat storage and economical shipment
- Easy assembly, no tools required
- Sizes range in length and width and are 30" (762 mm) high
- Optional intermediate dividers separate the table into two compartments; for use with
- the shelf in the lowest position
- By adding optional cross dividers you can separate the table into four compartments

### DV3324(OPT1)(OPT2)

DV3324 .... Grid Dump Divider
OPT1 .... Part Code (See Chart)
OPT2 .... ID=Intermediate Divider
CD=Cross Divider

**Intermediate Divider**

| Dump Table | Part Number |

| 48"W x 48"L x 30"H | DV332424CD |

## Wire Grid Dump Table

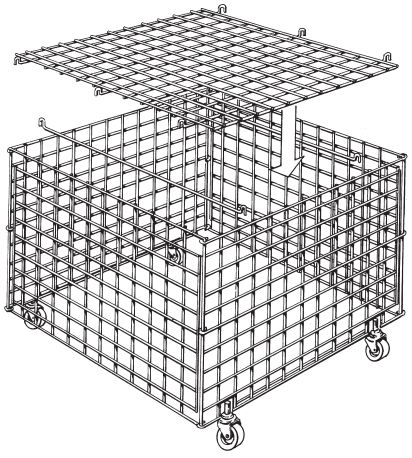

- Regular-duty 3" x 3" (76 mm x 76 mm) wire grid units constructed of ¼" (6 mm) wire
- Heavy-duty constructed of 5⁄16" (8 mm) wire
- Four panels are hinged at ends to fold flat for storage
- Removable square shelf is same construction as side panels and rests on horizontal wires of sides for height adjustment
- Locking swivel casters are standard on both heavy-duty and regular-duty
- 3" (76 mm) diameter swivel casters are load rated at 360 lbs total

### WGDT-(NW)(NH)

WGDT .... Wire Grid Dump Table, Regular-Duty

## Modular Table Merchandiser

- Fixture can be used as table or 6" platform (152 mm)
- Table heights are 30" or 42" high (762 mm or 1067 mm)
- Converts from platform to table and table to platform easily and with few parts
- Parts are ordered separately
- Use different table heights to create interesting tiered displays

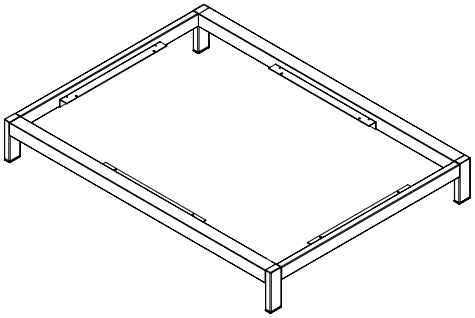

## A Modular Table Merchandiser Base

- 6" (152 mm) platform base

**MTMB-(NW)(ND)**

MT .... Modular Table
MB .... Merchandiser Base
NW .... Nominal Width 36" or 48" (914 mm or 1219 mm)
ND .... Nominal Depth 24", 36" or 48" (610 mm, 914 mm, or 1219 mm)

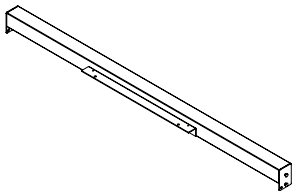

## B Modular Table Merchandiser Tie Bar

- Two required per table

**MTMTB-(NW)**

MT .... Modular Table
MTB .... Merchandiser Tie Bar
NW .... Nominal Width 36" or 48" (914 mm or 1219 mm)

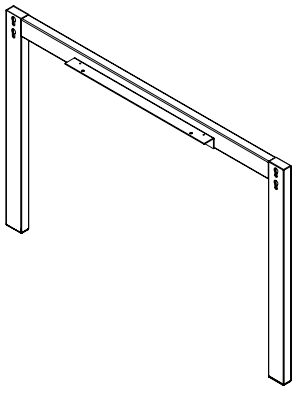

## C Modular Table Merchandiser Legs

- Two required per table

**MTML-(ND)(NH)**

MT .... Modular Table
ML .... Merchandiser Legs
ND .... Nominal Depth 24", 36" or 48" (610 mm, 914 mm, or 1219 mm)
NH .... Nominal Height 24" or 36" (610 mm or 914 mm)

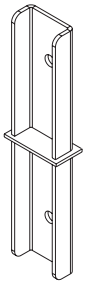

## D Modular Table Merchandiser Connector

- Four required per table

**MTMC**

MT .... Modular Table
MC .... Merchandiser Connector

## A-Frame

- For displaying paneling, molding, dimensional lumber, pipe or conduit
- Available in Wall and Gondola sections, starters and add-ons
- Unit has three punched crossbars which accepts all Vertical Divider Arms or M Dividers
- Constructed of sturdy 1" (25 mm) square, steel tubing

**AF(OPT1)-(OPT2)**

AF .... A-Frame
OPT1 .... I=Gondola
W=Wall
OPT2 .... S=Starter
A=Add

| Description | Starter Kit | Add-On Kit |
|---|---|---|
| A-Frame Gondola | AFI-S | AFI-A |
| A-Frame Wall | AFW-S | AFW-A |

## A-Frame Deck

- Sturdy ¾" (19 mm) thick particle board to support heavy load requirements of building materials
- Stop set is required

**AFDK**

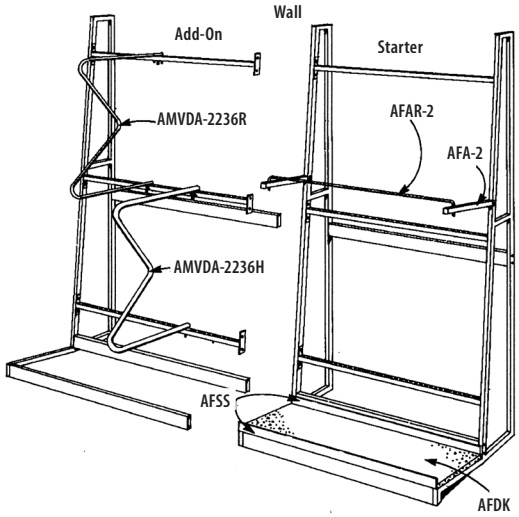

AFDK .... A-Frame Deck

## A-Frame Stop Set

- Consists of two heavy-metal angles for supporting deck at front and rear
- Front angle may be used as retainer
- Stop set required for all decks, including customer-provided decks
- Hardware included

**AFSS**

AFSS .... A-Frame Stop Set

## A-Frame Arm

- Fabricated from ¾" (19 mm) square steel tubing punched to accept retainer; mounts on front member of frame
- Hardware included

**AFA-2**

AFA .... A-Frame Arm
2 .... 2 Pack

## A-Frame Retainer

- Formed of ⅜" (10 mm) diameter steel rod, eliminating the danger of product tipping forward

**AFAR-2**

AFAR .... A-Frame Arm Retainer
2 .... 2 Pack

## A-Frame M Divider Arm

- Install into horizontal frame members at
- 1" (25 mm) spacing to allow narrower product presentation
- Regular-duty is ⅜" (10 mm) rod; heavy-duty is ¾" (19 mm) tubing

**AMVDA-2236(OPT)**

AMVDA ..... A-Frame M Divider Arm
22 ..... Nominal Depth 22" (559 mm)
36 ..... Nominal Height 36" (934 mm)
OPT ..... R=Regular-Duty
H=Heavy-Duty

## Tubular Bike Rack

- Combines three levels of bikes
- Easy to assemble
- Eliminates tool applications by utilizing sprint steel snap buttons
- Heavy gauge 1" x 2¾" (25 mm x 70 mm), welded tubing upright is 126" (3200 mm) high with standard slotting
- 72" (1829 mm) long base shoe assembly is welded heavy-gauge tubing with a 48" (1219 mm) leg on the bike display side and a 24" (610 mm) leg on the opposite side (for use with Standard Madix Upper Shelves)
- Three-piece Z-bar spanner system makes for a rock-solid unit to safely support the weight of three levels of bikes

### A B TBRU126(OPT)

TBRU .... Tubular Bike Rack Upright
126 .... Nominimal Height 126" (3200 mm)

## A Basic Upright

- Slotted 1" (25 mm) OC for flexibility plus maximum space
- Comprised of heavy-gauge, high-tensile steel components welded into a single unit with a 15,000 inch-pound rating
- All Basic Uprights have an integrated leveler
- Kickplates of either closed or open type (or reinforced base shoes) must be installed on shelving runs

### BU-(NH)

BU .... Basic Upright
NH .... Nominal Height 36" to 144" in 6" increments
(914 mm to 3658 mm in 152 mm increments)

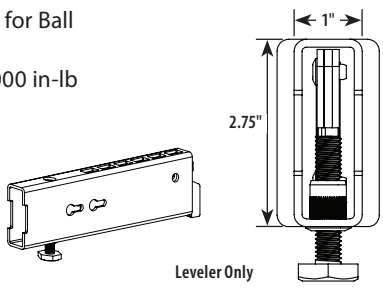

## B T-Leg Straight-In Locking, Spring Loaded

- Does not require hardware to attach to the Basic Upright [BU-(NH)]
- Installs straight into the Madix upright
- Legs can be removed and changed to another depth without disassembling the gondola
- Load capacity is 500 lbs per section for Ball Bearing Caster
- Load capacity without a caster is 9000 in-lb

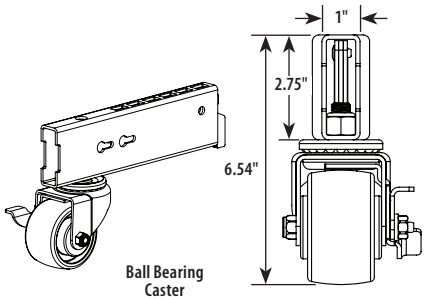

### TLEGSILSL(ND)-(OPT)

TLEG .... T-Leg
SIL .... Straight-In Locking
SL .... Spring Loaded
ND .... Nominal Depth 10" to 24" in 2" increments
(254 mm to 610 mm in 51 mm increments)
OPT .... Blank=Leveler Only
BBC=Ball Bearing Caster

## C TL Cap for T-Leg

- Black plastic only
- Ordered separately

**TLUCP**

TLUCP .... TL Upright Cap (Black only)

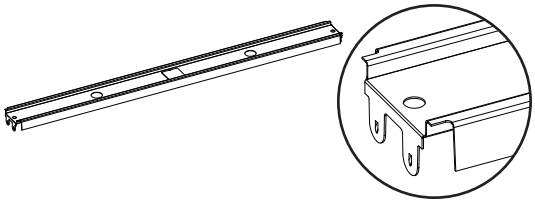

## D Top Spanner

- Snap-in spanner secures uprights at equal spacing, holds back panels, and trims top of section
- Electrical knockouts

**STL-(NW)**

STL .... Top Spanner
NW .... Nominal Width 3' or 4' (914 mm or 1219 mm)

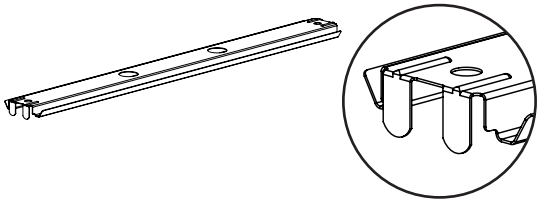

## E Lower Spanner

- Snap-in spanner secures uprights at equal spacing and supports back panels
- Electrical knockouts

**SL-(NW)**

SL .... Lower Spanner
NW .... Nominal Width 3' or 4' (914 mm or 1219 mm)

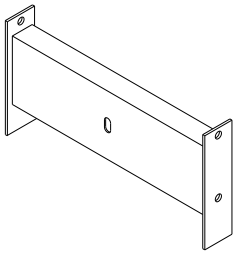

## F Seismic Tie Bar

- Stabilizes Maxi Line Basic Uprights when required by local or state building codes
- Bar may also be used if additional support is necessary for larger loads
- Hardware pack included

**SCS-(NW)**

SCS .... Seismic Tie Bar
NW .... Nominal Width 2', 3', 4', 5', 30" or 42" (609 mm, 914 mm, 1219 mm, 1524 mm, 762 mm or 1066 mm)

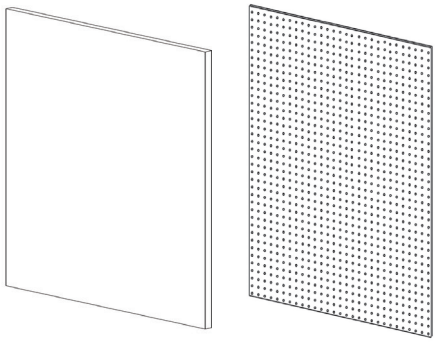

## G Back Panels, Pegboard or Hardboard

- Back nominal height (NH) should match Basic Upright [BU-(NH)] height

**B(TYPE)-(NW)(NH)**

B .... Back Panel
TYPE .... P=Pegboard
H=Hardboard
NW .... Nominal Width 3' or 4' (914 mm or 1219 mm)
NH .... 42" to 96" in 6" increments

## A Basic Upright

- Slotted 1" (25 mm) OC for flexibility plus maximum space
- Comprised of heavy-gauge, high-tensile steel components welded into a single unit with a 15,000 inch-pound rating
- All Basic Uprights have an integrated leveler
- Kickplates of either closed or open type (or reinforced base shoes) must be installed on shelving runs

### BU-(NH)

BU .... Basic Upright
NH .... Nominal Height 36" to 144" in 6" increments
(914 mm to 3658 mm in 152 mm increments)

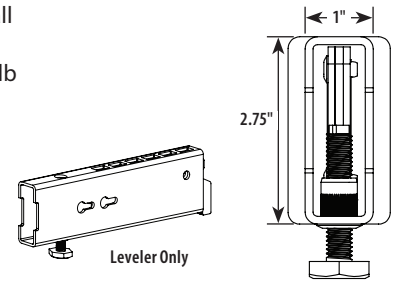

## B T-Leg Straight-In Locking, Spring Loaded

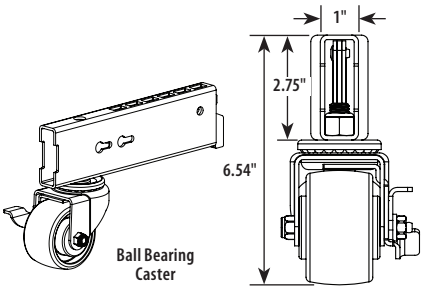

- Does not require hardware to attach to the Basic Upright [BU-(NH)]
- Installs straight into the Madix upright
- Legs can be removed and changed to another depth without disassembling the gondola
- Load capacity is 500 lbs per section for Ball Bearing Caster
- Load capacity without a caster is 9000 in-lb

### TLEGSILSL(ND)-(OPT)

TLEG .... T-Leg
SIL .... Straight-In Locking
SL .... Spring Loaded
ND .... Nominal Depth 10" to 24" in 2" increments
(254 mm to 610 mm in 51 mm increments)
OPT .... Blank=Leveler Only

# General Information

**Prices** All prices are subject to change without notice. Every effort will be made to give advance notice of any increase through notification from the home office. The customer will receive an acknowledgement showing prevailing prices at the time the order is processed. State or other sales or use taxes, freight and surcharges will be charged when applicable. Freight quotes may be provided based upon information available at time of quote, but are not guaranteed. Active freight charges will be billed if applicable. When market conditions dictate, a surcharge may be implemented. All quotations automatically expire at the end of 30 days.

**Terms** Cash in advance prior to production or net 30 days if open account status is approved by Madix Credit Department. MasterCard, Visa, and American Express are accepted.

**Acceptance** All orders, contracts, and agreements are subject to Madix's acceptance and approval. Madix shall not be liable for any delay in the performance of any order, contract, in the delivery of any goods, or for any damages resulting from such delay, when such delay is directly or indirectly caused by or due to fire, flood, accident, riot, act of God, war, governmental decree or order, strike, labor difficulties, shortage of labor, fuel, power, material or supplies, transportation delay or any other delay or causes (whether or not similar to any of those herein before specified) beyond our reasonable control. Order acceptance will be per the conditions and terms outlined in Madix's acknowledgement. Mailing of the acknowledgement will signify Madix's acceptance of the order.

**Minimum Charge** Orders are subject to a minimum charge of $50.00 net (merchandise only) per shipping destination.

**Changes and Cancellations** Customer requested changes and cancellations are subject to approval by Madix. Every reasonable effort will be made to accommodate these requests without additional cost to the customer. Any manufacturing or engineering costs incurred will be charged to the customer. Orders produced and delayed for more than one week may incur charges for demurrage, unloading, or other storage costs. Madix will advise customers of the estimated charges at the time changes or cancellations are made.

**Shipments** Method and route of shipment are at Madix's discretion unless Madix is furnished with complete shipping instructions at least ten (10) days before the scheduled shipping date. Freight is FOB/EXW Madix shipping point.

**Freight Claims** For common carrier shipments, claims must be made directly with the carrier by the recipient. Listed are the types of losses which may occur, and your responsibility in handling them:

***Loss of Freight:*** It is the receiver's responsibility to count the freight at the time of delivery. Any exception must be noted on the carrier's delivery receipt at time of delivery.

***Damage of Freight:*** As with a loss of freight, damage of freight must be noted on the carrier's delivery receipt at the time of delivery. It is the receiver's responsibility to make sure that the freight is inspected for visible damage and that the number of pieces damaged is marked on the carrier's delivery receipt. Failure to note visible damage at the time of delivery will result in non-payment of a damage freight claim. Salvage must be held for the carrier.

***Concealed Damage:*** If goods are received in apparently good condition but there is concealed damage, it is the customer's responsibility to contact your Madix Service Representative within 15 calendar days from delivery. Customer must keep the product and the packaging so that an inspection may be conducted by the carrier. Failure to handle a concealed damage claim in this manner could greatly reduce the amount recovered from the carrier.

**Returned Goods** Returned Goods requests must be submitted to Madix, Inc. within 60 days after receipt of product. Authorization must be in writing on Madix's RGA (Return Goods Authorization) form. Goods must be received within 30 days of RGA issue date for credit. Customer is responsible for delivery of authorized returns to Madix designated location in condition originally received. Only Code A products finished in returnable colors as indicated on the finish policy pages will be considered for return, and only items in unused, in resalable condition, and in the original packaging. No special size, color, or specially manufactured parts or products are eligible for return unless sent to the customer as the result of an error by Madix. Only merchandise listed on the RGA will be accepted for conditional return. Credit will not be issued for that portion of merchandise that is not considered resalable. A handling and restocking charge of 25% of the invoice price will be charged for all approved returns. Submit requests to your Madix Sales Representative or Customer Service Department prior to returning any merchandise. All returns must be have the customer name and Madix RGA number prominently displayed on each package. Product to be shipped prepaid at customer's expense unless prior approval has been received from an authorized Madix Representative.

**Warranty** We warrant to the original purchaser that all products manufactured by Madix are free from defects in material and workmanship. This warranty is invalid if products or parts are modified or used in a manner other than the intended purpose. Our obligation under this warranty is limited to repairing or replacing of any part or parts which shall, within one (1) year after delivery to the original purchaser, be demonstrated to be defective under normal use and service. This warranty is in lieu of all other warranties, expressed or implied, and of all other obligations or liabilities of any kind on Madix's part, and no modification of this warranty shall be valid or binding unless in writing and signed by an officer of Madix, Inc.

**Production** Madix fixtures are manufactured utilizing the most current technology of highly automated systems with process control techniques. Skilled craftsmanship, combined with automatic presses, roll forming machines, multi-spot welders, conveyers, finishing equipment and thorough inspections produce store fixtures of the highest quality.

**Upright** Carefully engineered of heavy gauge, high quality steel components, the UPRIGHT is slotted one inch on center for maximum flexibility, shelf adjustability and use ofavailable space. Standard heights range from 36" through 96" with built-in leveler. For the finishing touch at the end of the shelving run, the snap-on UPRIGHT END COVER is made of durable, scuff and impact resistant plastic or heavy gauge metal. The UPRIGHT CAP, made of high impact plastic, has provision for a sign holder.

**Base Shoe** The five inch low BASE SHOE features exclusive "I" beam design, engineered of projection welded high strength steel parts insuring maximum load capacity. Snaps securely into upright with leveler and electrical access allowing for quick error free installation. For the finished look, the one piece slip on BASE END COVER is made with a high impact plastic nose reinforcement to protect base shelf tag molding.

**Spanners** Snap-in support SPANNERS keep uprights at equal spacing and hold the back panels rigid. Each spanner has knockouts for electrical access and telescoping uprights.

**Back Panels** High density hardboard BACKS fit flush to the face of the upright. A wide variety of finishes include solid, pegboard, wood grain and fabric in a wide assortment of optional colors. Mirrors and open backs are also available.

**Kickplate** Fully floating feature of kickplate allows flush fit against uneven floors, snaps in and out without disturbing base shelf for easy cleaning. Convenient knockout accommodates electrical access.

# General Information

**Base and Upper Shelves** Steel base shelves feature lock tabs to insure quick installation and precision alignment. A double row of 1/4" inch perforations on the front and rear edge makes any form for binning possible. Slim bracket, high tensile design with flat or 15 degree downslope upper shelf positions allow for maximum merchandise visibility. Integrally formed price tag molding accommodates 11/4" tag. Upper shelves available in 8", 10", 12", 14", 16", 20", 22", 24", 26", 28", and 30" depths. Base shelves available in 12", 14", 16", 18", 20", 22" 24", 26", 28" and 30" depths.

**Shelf Loading** The recommended load capacity for upper shelves is based on evenly distributed weight. Capacities are reduced by 35% when front half is loaded and reflect rated maximum load. Load capacities are shown in the General Information Section under Shelf Loading.

**Baked Enamel, Powder Coat Finishes** All metal parts are finished with a specially formulated high solids or powder which are electrostatically bonded in a unique multi-stage process, to insure the highest quality finish. Aerosol cans of Touch-up paint are available in Madix's standard and optional colors. FAA regulations prohibit the shipment of this product by air or in export containers by air or ocean to countries outside the United States.

**Product Maintenance** When necessary to clean Madix shelving, use a non-abrasive mild detergent and warm water, followed by thorough drying. The use of a cloth made of a soft white cotton material is strongly recommended. The use of cleaning products that contain abrasive, bleach, or strong solvents, such as ketones, ethers, etc. will result in damage to the finish. The damage is most severe when these harsh cleaning agents are used on colors which contain leafing aluminum pigment such as powder chrome, silver vein, and other "vein" type finishes. The aluminum in these coatings resides at the surface of the finish and is therefore susceptible to damage by the harsh cleaning agents. As an alternative to the mild detergent, cleaners with ingredients similar to those found in products such as 409, Fantastik, and Simple Green can be used. Caution! Cleaners having ingredients similar to those found in Ajax, Borax, Comet, etc. should be avoided as finish damage could result.

**Codes** In your planning stage, consult with local municipal engineers to determine what codes and restrictions will be applicable in the locations where the shelving will be used.Codes may include: state, local, fire, building, and health and safety codes. Seismic requirements may apply in some locations. For example, in most locations fire codes state that fixtures need to be at least 18 inches below the sprinklers.

**Shelving Selection** Take into consideration the load that is expected not only on each shelf but also on the unit as a whole. Take into account the upright capacity. Refer to the load capacity information that is in the Madix Standard Catalog. Madix shelves are rated using an evenly distributed load. Do not install shelves or accessories that extend beyond the depth of the Base Shelves. Consider making the Base Shelves and low height fixtures a contrasting color from the floor's color to prevent potential tripping hazards. Do not use Madix parts or accessories for any purpose other than originally intended by Madix.

**Shelving Installation** Initial installation or relocation of Madix shelving should be supervised by qualified personnel. Madix products should be installed according to Madix's specifications. Madix's installation sequence must be followed for assembly and leveling. An improperly installed store fixture has a poor appearance and may cause a dangerous condition. Be especially careful when leveling fixtures with offset loads in which one side of the fixture has a considerably heavier load than the other side. Dismantling and reassembling used Madix shelving can be dangerous if the installers who are doing the work leave out parts, use damaged parts, or do not reassemble the product by Madix's specifications. Do not alter, modify, or structurally change any shelving component. Do not move assembled shelving. Only parts and accessories that are produced and supplied by Madix are covered by the Madix warranty. Do not assemble Madix fixtures with parts from other manufacturers. Under no circumstances should you use damaged parts. When assembling Gondola/Wall Shelving, install Kickplates to protect the Base Shoes from floor cleaning equipment and to offset the possible bumping and misalignment of the shelving runs. Do not install shelves or accessories on the sides of wall sections or any section that is not supported by Base Shoes. Use caution when handling and transporting shelving parts. Be careful when cutting shrink wrap from pallets because the shelving parts can dislodge from the wrap and fall. Cut the wrap gradually from the top, only as much as you need to remove the product from the top. Two common hazards while installing store fixtures are: employees hurting themselves with improper types of box cutters and employees putting boxes on the floor and then tripping over them.

**Anchoring and Floors** Depending on code requirements and Madix's specifications, some products must be anchored to the walls and/or floors. Do not lean tall or heavy objects against unanchored shelving systems. Retailers must consider the type of floor upon which the shelving will be installed.

**Impact Loading** Impact during the loading and unloading of merchandise can create an adverse loading situation and may result in damage to or failure of the Madix shelving. Do not walk or climb on Madix shelving.

**Overturning** Overloading the top portion of the shelving, non-uniform loading, out-of-plumb installation, and impact can cause shelving to overturn. Improperly installed Madix shelving with offset loads can cause store fixtures to collapse. Carefully follow Madix's installation instructions in order to prevent shelving from overturning.

**Additional Shelving Safety Pointers** Product loading instructions are included with each Madix order. Retailers must make merchandisers aware of the product's load limitations and the dangers of overloading the shelving. Remove any merchandise or overstock before attempting to move Madix shelving. Periodically inspect your Madix shelving for damaged or loose parts. Make sure that shelves and accessories are properly seated in the slotting or perforations. Make sure that shelves and accessories are not overloaded. As merchandising changes, beware of creating offset loads on shelving runs that are not properly leveled. Look for leveling warning signs such as increased gaps between shelves or accessories that may indicate that the shelving runs need re-leveling. Damage to Madix shelving is dangerous. In some cases, the shelving should be unloaded immediately and repaired or replaced before returning to service. Re-level fixtures that you have bumped or moved. Incorporate safety into your merchandising strategy. When possible, merchandise the heavier products on the lower shelves. If the merchandise will not fit on the Madix shelves and there is a replenishment cycle, make sure that the cycle is a safe one. Make sure that merchandise and overstock are properly stacked and maintained so that items will not fall into the aisles. Assure that customers who handle merchandise or overstock will not push product from one side of the Madix fixture to the other side where people could be injured from falling merchandise. Safely secure overstock that is placed on Madix shelves overhead. Measure the difficulty that your employees have in retrieving overstock, and consider whether employees or customers could be injured if the product happens to fall from the shelving units. Teach employees and inform customers that Madix shelves should never be used as ladders to reach higher shelves. Ladders should be clearly marked for employees use only and should not be left unattended, or customers will try to remove stock on higher shelves by themselves. Notify customers to ask for assistance when they need product that is out of their reach.

### Finish Policy for Metal Products

**Standard Colors, Returnable– Code A** Madix standard returnable colors for display shelving are Sahara, Blue Gray, Oyster, Snow White, and Satin Black. Madix standard returnable colors for wire products only are Powder Chrome and Silver Vein. All catalog items are priced in standard color.

**No Charge Colors (Non-Returnable)– Code B** Madix non-returnable colors offered at the standard price are Chocolate, Dove Gray, Dover White, Fashion Gray, Skyline Gray and Tru Gray. All catalog items are priced in standard color.

**Optional Colors-Level I Finishes (Non-Returnable)– Code B** Madix offers optional colors, also known as Grade I Finishes, at additional charge: Bright Orange, Hollyberry, Hunter Green, Mandarin, Neon Blue, Spectrum Blue, Spectrum Green, Spectrum Red and Valencia. Products painted with these colors are non-returnable.

**Metal Components:** $350.00 line charge plus published per-piece charge. **Metal Back panels:** $350.00 line charge plus published per-piece charge.

**Special Colors– Code C** Use line change charge plus per piece charge supplied by customer service. Special colors are non-returnable.

**Pricing For Levels II To IV:**

**Level II:** 1.6 x Optional Color Upcharge. **Example:** Optional upcharge for SUS is $1.50; upcharge with Level II finish will be $2.40.

**Level III:** 2.8 x Optional Color Upcharge. **Example:** Optional upcharge for SUS is $1.50; upcharge with Level III finish will be $4.20.

**Level IV:** 3.8 x Optional Color Upcharge. **Example:** Optional upcharge for SUS is $1.50; upcharge with Level IV finish will be $5.70.

**Metal Components:** $500.00 line charge plus published per-piece charge. **Back panels:** $350.00 line charge plus published per-piece charge.

### Maintenance for Metal Products

**Baked Enamel and Powder Coated Finishes** All metal parts are finished with a specially formulated high solids or powder which are electrostatically bonded in a unique multi-stage process to insure the highest quality finish. Aerosol cans of touch-up paint are available in Madix's standard and optional colors. FAA regulations prohibit the shipment of this product by air or in export containers by air or ocean to countries outside the United States.

**Product Maintenance** When cleaning Madix shelving, use a non-abrasive mild detergent and warm water, followed by thorough drying. Using a soft white cotton cloth is strongly recommended. Cleaning products containing abrasives, bleach, or strong solvents will result in damage to the finish, especially when used on colors containing leafing aluminum pigment, such as powder chrome or vein-type finishes.

### Finish Policy for Wood Products

**High Pressure Laminate** The terms "laminate" or "HPL" are commonly applied to this material which consists of multiple layers of paper infused with phenolic resin and topped by a finish paper coated with clear melamine resin, all totally bonded under high pressure and heat. The finished sheet has extremely high wear and impact resistance.

**Customer Specified High Pressure Laminate** Madix coding is based on Wilsonart availability. Laminates other than Wilsonart may require additional lead time.

- Customer specified laminates add $100.00 per pattern, per order
- Additional charge will apply based on the laminate grade that is chosen

Laminates that are not from a laminate manufacturer's standard samples (metallics, heavy textures, wet looks, core edge, special prints)will require a special quote. Contact Customer Service for specific pricing on laminates not listed above.

**Thermofused Panels** Thermofused panels are ideal for non-wear surfaces and have substantial impact and wear characteristics compared to melamine panels previously available. The product is produced using hot press laminating polyester or melamine resin impregnated self-bonding paper to wood substrate. Performance specifications are available from the American Laminations Association. Madix does not recommend the use of Thermofused panels on horizontal or other wear surfaces.

**Printed Mirror Hardboard** Printed materials are primarily used for back panels, but appear as various other products. These materials are carefully cross matched to the corresponding laminates and Thermofused. Mylar mirror hardboard is used in the same applicationsand is also available in pegboard and grooved pegboard.

### Finish Policy for Back Panels

**Standard Colors, Returnable– Code A** Madix standard returnable colors for display shelving back panels are Sahara, Oyster, and Snow White.

**Optional Colors-Level I Finishes (Non-Returnable)– Code B** Madix non-returnable back panel colors offered at the optional price are Chocolate, Dove Gray, Dover White, Fashion Gray, Satin Black, Skyline Gray, Blue Gray and Tru Gray. Set-up charge of $350.00 applies.

**Optional Colors-Level II Finishes (Non-Brilliant)– Code B** Madix offers optional back panel colors also known as non-brilliant finishes at an additional charge. These colors include custom grays, off whites, tans, and beiges not listed in Madix's Finishes brochure. Products painted with these colors are non-returnable. Set-up charge of $350.00 applies.

**Optional Colors-Level III Finishes (Brilliant)– Code C** Brilliant back panel finishes include Hunter Green, Neon Blue, Spectrum Blue, and Spectrum Green. Set-up charge of $350.00 applies.

**Optional Colors-Level IV Finishes (Reds and Yellows)– Code C** Use line change charge plus per piece charge supplied by customer service. Special colors are non-returnable. Set-up charge of $350.00 applies.

**Pricing For Levels II To IV**

**Level II** 1.2 x the difference between the Hardboard/Pegboard Optional Color pricing and the Hardboard/Pegboard Sahara pricing. **Example:** Optional upcharge for a BH-342 with a Level II finish would be calculated as follows: $13.85 - $12.45 = $1.40 x 1.2 = $1.68. The color upcharge for a BH-342 with a Level II finish is $1.68. This upcharge amount will be added to the Optional Color price of a BH-342. The new price of a BH-342 using a Level II finish is $15.53 ($13.85 + $1.68 = $15.53).

**Level III** 1.4 x the difference between the Hardboard/Pegboard Optional Color pricing and the Hardboard/Pegboard Sahara pricing. **Example:** Optional upcharge for a BH-342 with a Level III finish would be calculated as follows: $13.85 - $12.45 = $1.40 x 1.4 = $1.96. The new color upcharge for a BH-342 with a Level III finish is $1.96. This upcharge amount will be added to the Optional Color price of a BH-342. The new price of a BH-342 using a Level III finish is $15.81 ($13.85 + $1.96 = $15.81).

**Level IV** 1.8 x the difference between the Hardboard/Pegboard Optional Color pricing and the Hardboard/Pegboard Sahara pricing. **Example:** Optional upcharge for a BH-342 with a Level IV finish would be calculated as follows: $13.85 - $12.45 = $1.40 x 1.8 = $2.52. The color upcharge for a BH-342 with a Level IV finish is $2.52. This upcharge amount will be added to the Optional Color price of a BH-342. The new price of a BH-342 using a Level IV finish is $16.37 ($13.85 + $2.52 = $16.37).

**NOTE! See Finishes Brochure for color samples.**
